Note: please start your introduction without including the word “Introduction” as a section heading (except for ma

*Guide to using this template on Overleaf

Please note that whilst this template provides a preview of the typeset manuscript for submission, to help in this p

If you have a question while using this template on Overleaf, please use the help menu (“?”) on the top bar to sear

*Author Affiliations

Include department, institution, and complete address, with the ZIP/postal code, for each author. Use lower case le

*Submitting Manuscripts

All authors must submit their articles at <http://www.pnascentral.org/cgi-bin/main.plexPNAScentral>. If you are us

*Format

Many authors find it useful to organize their manuscripts with the following order of sections; title, author line and

*Manuscript Length

Brief Reports are limited to 3 pages, which is approximately 1,600 words (including the manuscript text, title page,

*References

References should be cited in numerical order as they appear in text; this will be done automatically via bibtex, e.g

*Data Archival

PNAS must be able to archive the data essential to a published article. Where such archiving is not possible, depos

*Language-Editing Services Prior to submission, authors who believe their manuscripts would benefit from professio

[width=.8]frog Placeholder image of a frog with a long example legend to show justification setting.

[[t] [width=11.4cm,height=11.4cm]frog This legend would be placed at the side of the figure, rather than below it.

*Digital Figures

EPS, high-resolution PDF, and PowerPoint are preferred formats for figures that will be used in the main manuscri

Images must be provided at final size, preferably 1 column width (8.7cm). Figures wider than 1 column should be s

Figures and tables should be labelled and referenced in the standard way using the `\label{}` and `\ref{}` comman

Figure ?? shows an example of how to insert a column-wide figure. To insert a figure wider than one column, pleas

*Tables Tables should be included in the main manuscript file and should not be uploaded separately.

*Single column equations

Authors may use 1- or 2-column equations in their article, according to their preference.

To allow an equation to span both columns, use the `\begin{figure*}...\end{figure*}` environment mentioned a

Note that the use of the `\widetext` environment for equations is not recommended, and should not be used.

[bt!] $(x+y)^3 = (x+y)(x+y)^2$

$$= (x+y)(x^2 + 2xy + y^2)$$

$$= x^3 + 3x^2y + 3xy^2 + y^3.$$

nomenclature for the TSs refers to the numbered species in the table.

*Supporting Information (SI)

Authors are limited to the following types of SI: extended methods, datasets, videos, and 3D figures. Extended disc

*SI Appendix

Supply extended materials and methods information in a separate SI Appendix PDF file. Include SI movie legends.

*SI Datasets

Supply .xlsx, .csv, .txt, .rtf, or .pdf files. This file type will be published in raw format and will not be edited or co

*SI Movies

Supply Audio Video Interleave (avi), Quicktime (mov), Windows Media (wmv), animated GIF (gif), or MPEG files

*3D Figures

Supply a composable U3D or PRC file so that it may be edited and composed. Authors may submit a PDF file but
